To Whom It May Concern:

I am writing this letter in support of Surisa Surisa's application for the Global Talent (Exceptional Talent) visa.

I have worked with Surisa on two International Feature Films both as On Set Art Director namely Safehouse (Denzel Washington/Ryan Reynolds ) 2011 as well as Mad Max Fury Road (Charlize Theron/Tom Hardy) 2016

Colin Gibson has won the Oscar for Mad Max Fury Road in 2016, I received the ADG Excellence in Production Design award, due of my role as Art Director on Mad Max Fury Road.

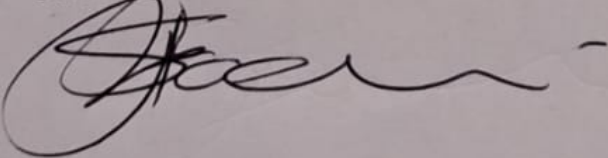

Nor Colin or I would not have been awarded if it was not for the exceptional crew that helped us made this project a success.

Surisa being key contributor. Her contribution to all projects she participates in is immense.

She has exceptional talent! She has a very creative approach and executes her duties in a professional and skillful manner always on time and with a great attitude. She is loved and respected by all on set.

Surisa is hardworking and apply herself with dedication and total commitment to the project and tasks she faces, she is a quick thinker and problem solver.

Sincerely

Janni van Staden
